Session Tracking and Cookies

This simple application demonstrates HTTP Session and Cookie tracking mechanisms in Java Servlets.

1. HTTP Session Demo

Enter username to start session:

Login (Set Session)

[Or try to view Profile \(Read Session\)](#)

2. Cookie Demo

Enter username to save in cookie:

Save (Set Cookie)

[Or try to read Cookie](#)

9

```
Welcome, Upendra! Session created.  
<br><a href="/ProfileServlet">Go to Profile</a>
```

10

```
Hello again., Upendra
```
